

Luong The Vinh

Software Engineer | System Architect | Team Leader

Hanoi, Vietnam | vinhlt@vnpt.vn | 0944 870 666
my-portfolio-chi-azure-45.vercel.app | github.com/vinhlt-github

Summary

Senior Software Engineer with **15+ years** of hands-on experience in **Telecommunications, Ecommerce, and System Integration**. Expert in **Legacy-to-Microservices migration**, enterprise-grade database tuning, and multi-platform architecture. Pioneer in building and operating ***AI Agentic* Coding Teams** to optimize software development productivity.

Experience

Tech Lead / AI Mentor / BA / PM, VNPT Technology / Freelance – Hanoi, Vietnam Jan 2022 – Present

- **Amadeus Integration (2026)**: Processed real-time flight data streams from Amadeus (IATA/SITA messages) using **Java** Core multi-threading
- **E-Invoice & BIDV (2025–2026)**: Upgraded to Decree 70 compliance, deployed for BIDV bank. Built SSO, Token Auth, and deep banking data processing (**Java**, Spring, **Oracle**)
- **Web Builder & AI Agentic (2024–2026)**: Designed Web Builder platform (**Next.js**, Sandpack). Operated AI Agents team for automated Debug/Refactor workflows
- **Autogate – National Security (2022–Now)**: Integrated VisionBox (Portugal) into Vietnam airport security infrastructure. Worked with foreign experts, designed air-gapped network security solutions (**Java**, NiFi, EDIFACT, .NET, Linux). Featured on VnExpress
- **EVN Hanoi Modernization (2022–2025)**: Migrated Legacy .NET to **Microservices** (.NET Core, **Oracle** GoldenGate). Developed **React** Native mobile app for Android/iOS — Website | Google Play | App Store
- **Homefarm MiniApp (2023–Now)**: Integrated multi-platform (Zalo, TikTok, Shopee, Grab) into **Microservices** system. Built Pricing Engine V3 with **Docker**
- **Security Mobile POC (2022)**: R&D background-running Android app (Kotlin, WebRTC) for security operations

Developer (Agile/Scrum), VNPT Technology / Freelance – Hanoi, Vietnam Jan 2020 – Dec 2022

- **iGate v3 & Land Management**: Built Dynamic Workflow engine using .NET Core and **Angular** with Agile/Scrum methodology
- **eCabinet & National Reporting (VSR)**: Developed paperless meeting system and national statistics reporting platform (**Java**, **Oracle**)

Developer → Team Leader → Tech Lead, VNPT Hanoi – Hanoi, Vietnam Jan 2010 – Dec 2020

- **Mobile & Desktop Ecosystem (2016–2020)**: Built enterprise connectivity system using **Java**, Swift. Deep-tuned **Oracle** for millions of subscribers
- **Network Resource Management (2015)**: Managed core network and remote modem control software (.NET, MySQL)
- **VNPT Repair Dispatch (2010–2014)**: Built operations dispatch system serving millions of subscribers from day one of career (.NET, ASPX, **Oracle**)

Key Projects

Autogate – Airport Security Integration Jan 2022 – Present

Integrated VisionBox (Portugal) automated gates into Vietnam's airport security (Noi Bai, Tan Son Nhat). EDIFACT, PAXLST/PNRGOV processing

- Processed IATA/SITA real-time messages with multi-threaded **Java** Core
- Designed air-gapped network security solutions working with foreign experts

EVN Hanoi – Power Utility Modernization

Jan 2022 – Dec 2025

Full-stack modernization of Hanoi's power utility system — Legacy .NET to .NET Core **Microservices**

- **Oracle** GoldenGate for real-time data replication
- **React** Native mobile app published on both App Store and Google Play

Homefarm – Omnichannel E-commerce

Jan 2023 – Present

Multi-platform e-commerce integration (Zalo, TikTok, Shopee, Grab) with **Microservices** backend

- Pricing Engine V3 with automated promotion and drift detection
- **Docker**-based deployment with CI/CD pipelines

Web Builder & AI Agentic Coding

Jan 2024 – Present

Elementor-like web builder platform with AI-powered development automation

- **Next.js** + Sandpack live preview architecture
- AI Agents for automated code review, refactoring, and debugging

Skills

Backend: .NET Core, **Java** / **Spring Boot**, Node.js

Frontend: **Next.js** / **React**, **Angular** (v2–18), **TypeScript**, Tailwind CSS

Database: **Oracle** (Deep Tuning), MongoDB, MySQL, PostgreSQL

Mobile: **React** Native, Kotlin, Swift

AI & DevOps: **AI Agentic** (CrewAI, MCP), **Docker**, Jenkins CI/CD, Linux

Architecture: **Microservices**, Event-Driven, Legacy Migration, System Integration

Leadership: Team Management (10+ members), Agile/Scrum, Technical Mentoring

Education

Hanoi University of Science and Technology (HUST), Engineer in Information Technology
– Hanoi, Vietnam

Sept 2006 – June 2010

Languages

Vietnamese: Native

English: Professional working proficiency
